

FREE YOUR MIND - CONCEPT

I WELCOME PAGE

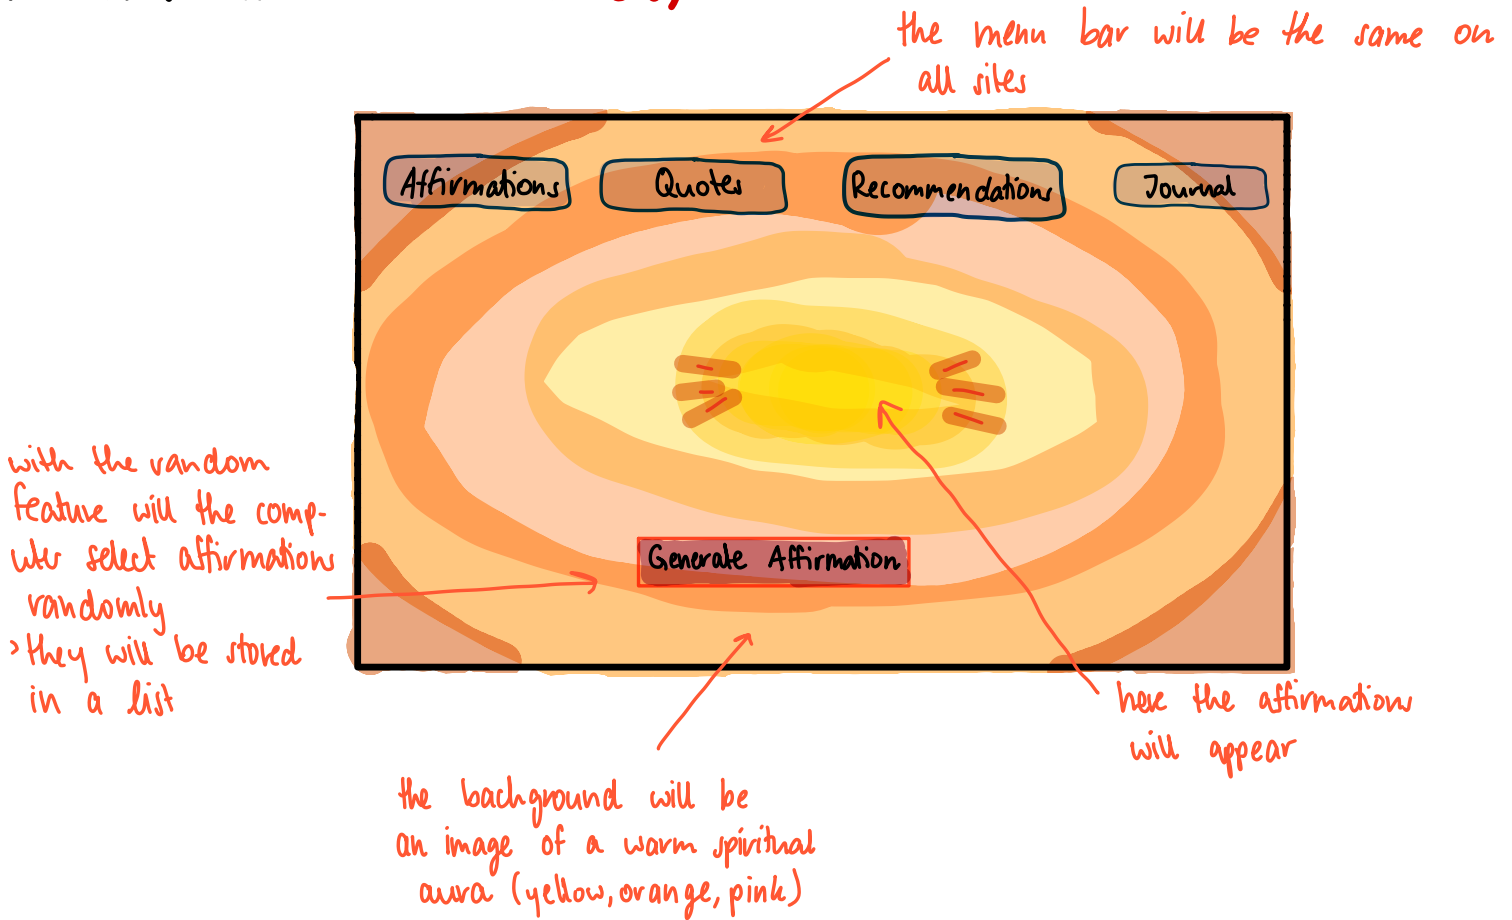

II JOURNAL ENTRY

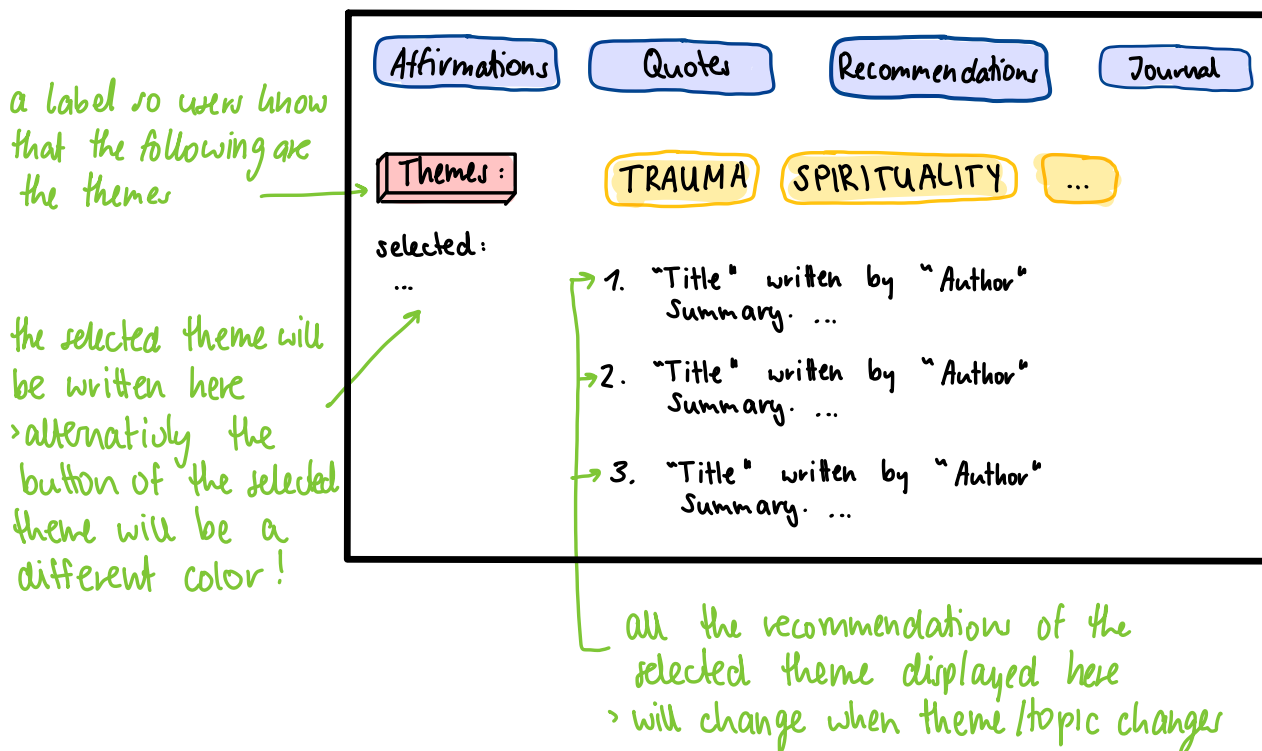

new concept: words to speech → affirmations will be read to the user

III AFFIRMATIONS (new)

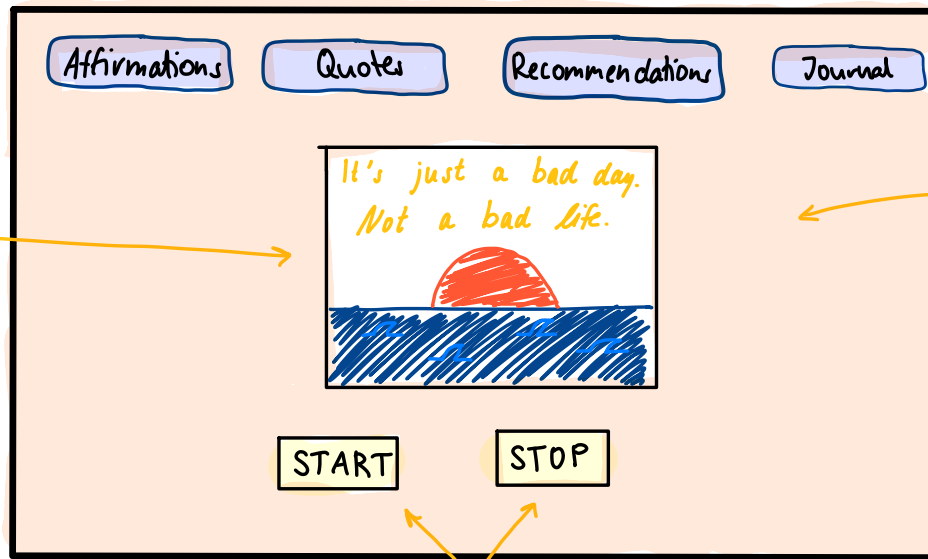

IV RECOMMENDATIONS

V QUOTES

idea: a page where inspirational quotes appear that can be uplifting as well as inspire change etc.

the quotes will appear in the middle of the frame

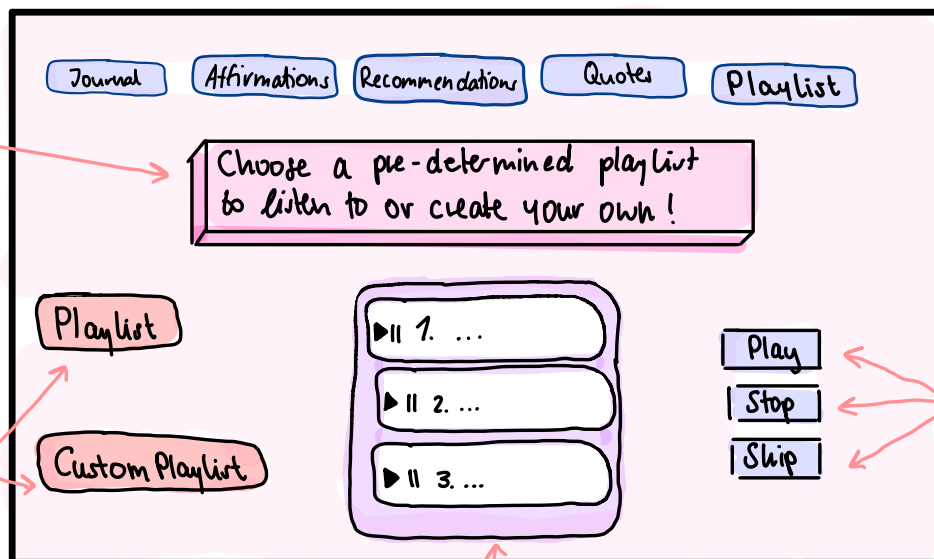

the background is not yet decided

with the start and stop button it's possible to pause and resume the slide show at any given time

VI PLAYLIST (new)

idea: the user can listen to music while clicking through the website

Label describing the concept

buttons to play, stop or skip a song

the playlist is being displayed here

VII NEW or REVISITING USER

concept: users can create a profile with their login data to track their mental wellness journey. They can access premium content like mood tracking in correlation with their morning routine.

the background is not yet decided, as well as the green theme

by clicking on the LOGIN Button, the user can either register or login to their profile

a window will appear to either login with your account by entering your email address and user name

or the user can create a new account with a different email address

VII a. Meditations

concept: User can listen to Meditations only when created an account and logged in.

some Meditations the user can listen to when scrolling through the app, or simply to meditate

this button will only appear after the user logged in

the Meditations will be initialized with pygame

user can play and pause each meditation
